CATALYST FOR CHANGE

"We are all catalyst for change!"

THE NEED FOR CFC

Metaphorically, the ballot approved and long overdue, new flag, featuring a glorious magnolia blossom surrounded by 20 stars signifying Mississippi's status as the 20th state in the union, with a gold five-point star to reflect its indigenous tribes, shows the *potential of each resident as a catalyst or change agent* for the betterment in quality of life through social justice and health equity as opposed to a history of intolerance and unhealthy, underserved communities.

CATALYST FOR CHANGE: GOAL

Following an official registration with the Mississippi Department of State, Catalyst for Change (CFC) quickly obtained designation from the Internal Revenue Code under Section 501(c)(3) as a tax exempted non-profit organization effective July 10, 2020. CFC provides charitable ancillary social/health services throughout “Magnolia State” for residents of all ages.

CFC'S SERVICES

With the invaluable assistance of volunteers plus contracted community **health workers, health educators, and social service specialist**, CFC provides charitable health equity and social services through the state of Mississippi to its approximately 3 million residents, including but not limited to;

- advocating eldercare;
- advocating health & wellness;
- assessing health equity;
- assisting with COVID 19;
- evaluating healthcare services;
- facilitating healthcare access;
- reimagining policing; and
- training health professionals, as well as volunteers.

“In compliance with NASW’s Code of Ethics Preamble, CFC’s plans to enhance human wellness, while meeting the needs of all people, particularly the most vulnerable, oppressed, and those living in poverty.” –Kathy Burk, President”
